

**Mississippi State University
Department of Electrical and Computer Engineering
Masters Non-Thesis Oral Comprehensive Examination Evaluation Form**

Procedure:

- The student's graduate committee draws up a list of 6 topics covering the student's coursework. The major professor collects the topics from the committee members, assembles the list of topics, and provides the list of topics to the student no later than two weeks before the scheduled Oral Comprehensive Examination.
- At the Oral Comprehensive Examination, the committee selects 3 topics from the previously provided list of 6. The student is asked questions on these 3 topics by the committee, and the student orally responds to the questions.
- The committee evaluates the student's responses by completing the Masters Non-Thesis Oral Comprehensive Examination Evaluation form.
- The major professor submits the completed Masters Non-Thesis Oral Comprehensive Examination Evaluation form along with the Report of Examination Results form to the Graduate Program Director at the completion of the Oral Comprehensive Examination.

General Information:

Name: _____ MSU ID: _____
Date of Oral Comprehensive Exam: _____ Net ID: _____

Committee Evaluation

Communication Skills

	circle one (1=low, 5=high)				
Speaking was coherent and understandable	1	2	3	4	5
There was logic in the progression of ideas within each response	1	2	3	4	5
Committee did not have to prompt with probing questions	1	2	3	4	5

Communication average:

Technical Content

	circle one (1=low, 5=high)				
Responses were technically correct	1	2	3	4	5
Responses demonstrated technical knowledge of sufficient depth in the specific topics covered	1	2	3	4	5
Responses demonstrated technical knowledge of sufficient breadth across the discipline as a whole	1	2	3	4	5

Technical average:
